# Permissions, Privacy & Security

## What access do the various app levels have?

In general:

**You must have the PubSafe™ mobile app to register a user. You must upgrade to join a Team or an Organization.** Click Here **to get the PubSafe™ app.**

The app version will determine the level of access and functionality once in the portal and mobile app. The list below is just a rough outline and can change at any time.

**Free** - Users can only use the bottom menu functions, no Responder role, does not get alerts, cannot use Teams, or access the PubSafe™ portal.

**Base** - Citizen only. Limited number of Teams and team members. Can log into web portal only view the member map.

**Plus** - Can change to Responder status, access the web portal member map, weather data, more and bigger teams.

***Pro*** - Designed for NGOs. Portal dispatching tools and advanced functionality. Large teams and org membership.

***Government*** - Large teams and lots of org members. Portal access for mass messaging any PubSafe user in a limited area.

***Enterprise*** - Designed for global organizations like the Red Cross, UNICEF, and Samaritans Purse. It can be used by any business seeking safety and communication functionality.
