How can I record volunteer hours?

PubSafe can be used to create a record of volunteer hours with a higher degree of fraud protection and verification. Volunteer hours can log your phone GPS coordinates and include photos of your work to help others understand the time and effort you put in.

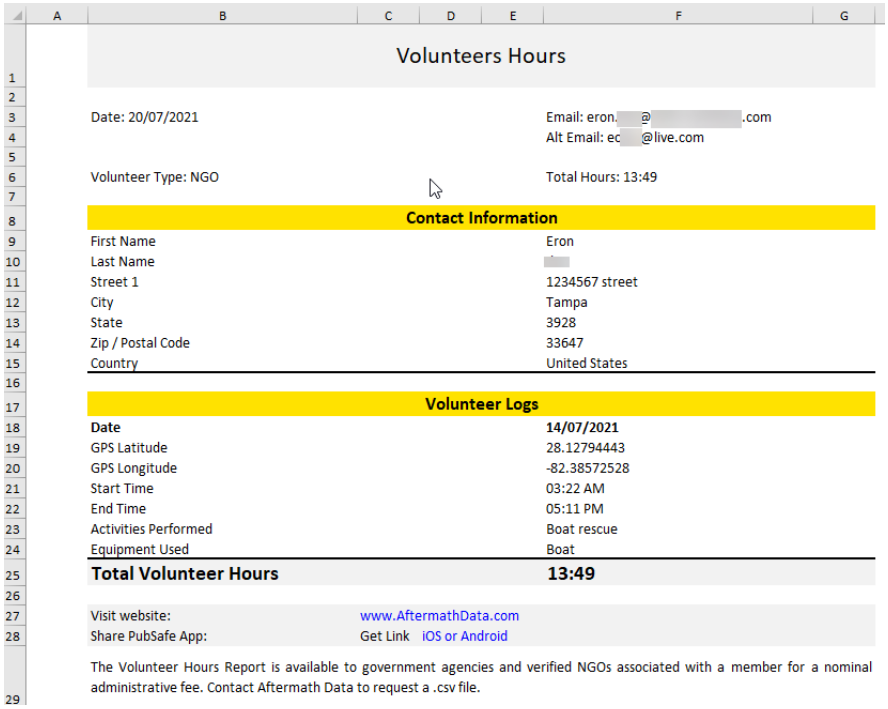

Navigate to the More menu in the lower right corner and then to Report Hours. Next, complete the forms and click submit. It is that easy.

You can opt to have a copy of the information sent to an email address in Excel format for storage outside of the PubSafe mobile app and sharing with government agencies. Organizations can use the spreadsheets to compile the type of work, hours, and location to promote the organization's efforts and for potential reimbursement from government funds and promotion of future volunteers.
