Inviting Members to an Organization

Once an organization application is approved, the originating user is the account owner and admin, and can login using their PubSafe app credentials.

Inviting Members to Your Organization

The next step is to invite people to join the organization from the web portal by sending invites or sharing a unique join link or QR code. **All PubSafe users must install the PubSafe mobile app and upgrade to the Pro version to join an organization.**

[Watch Video - How to Invite Member to Your Organization](#)

Sharing Options Include:

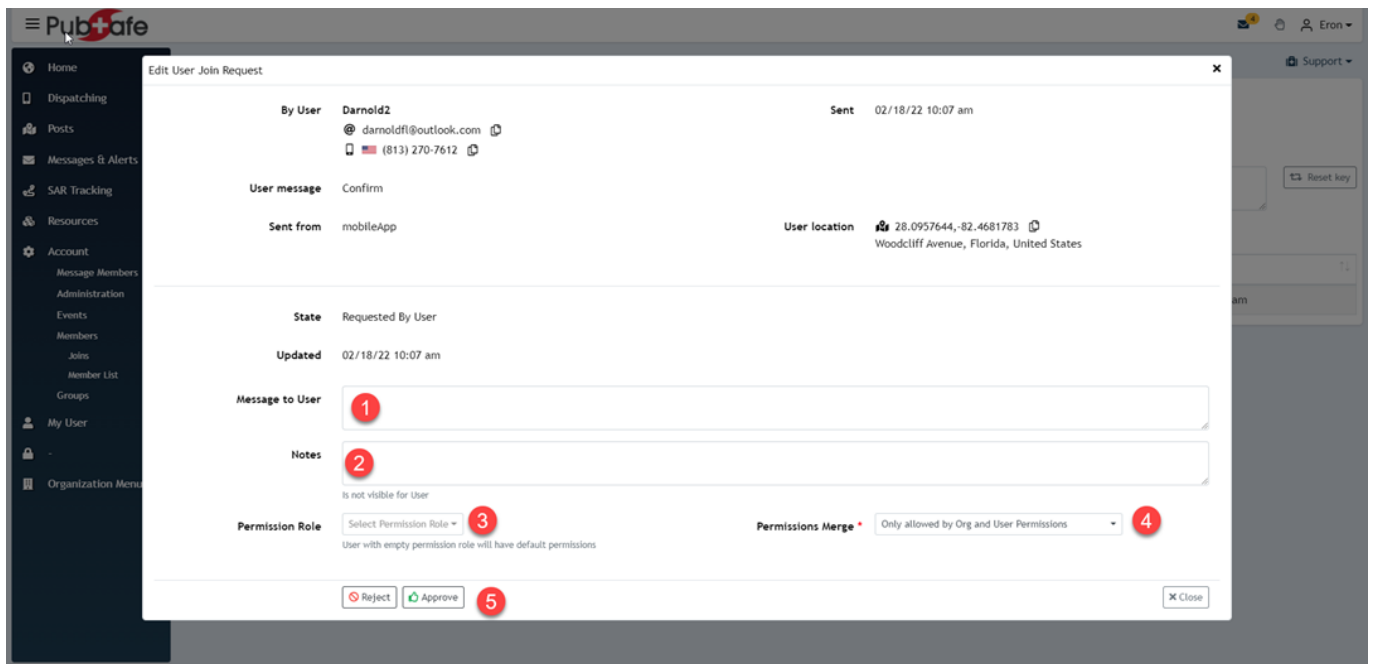

- Email link
- Copy link for SMS
- Scanning & sharing QR code

The screenshot shows the PubSafe web portal interface. On the left is a dark sidebar menu with items like Home, Dispatching, Posts, Messages & Alerts, SAR Tracking, Resources, Account (1), Message Members, Administration, Events, Members (2), Joins (3), Member List, Groups, My User, and Organization Menu. The main content area is titled 'Account / Joins'. It features an 'Org ID 3' and 'Org Join Key' with a 'User join link' icon and a QR code (6). Below this is an 'Email Join Invitation' field (4) with a 'Send' button (5). An 'Invitation Description' field is also present. A table below shows a list of invitations with columns for Date, User, State, and Updated. A red circle (7) highlights the first row of the table.

Date	User	State	Updated
02/18/22 10:07 am	Darnold2	Requested By User	02/18/22 10:07 am

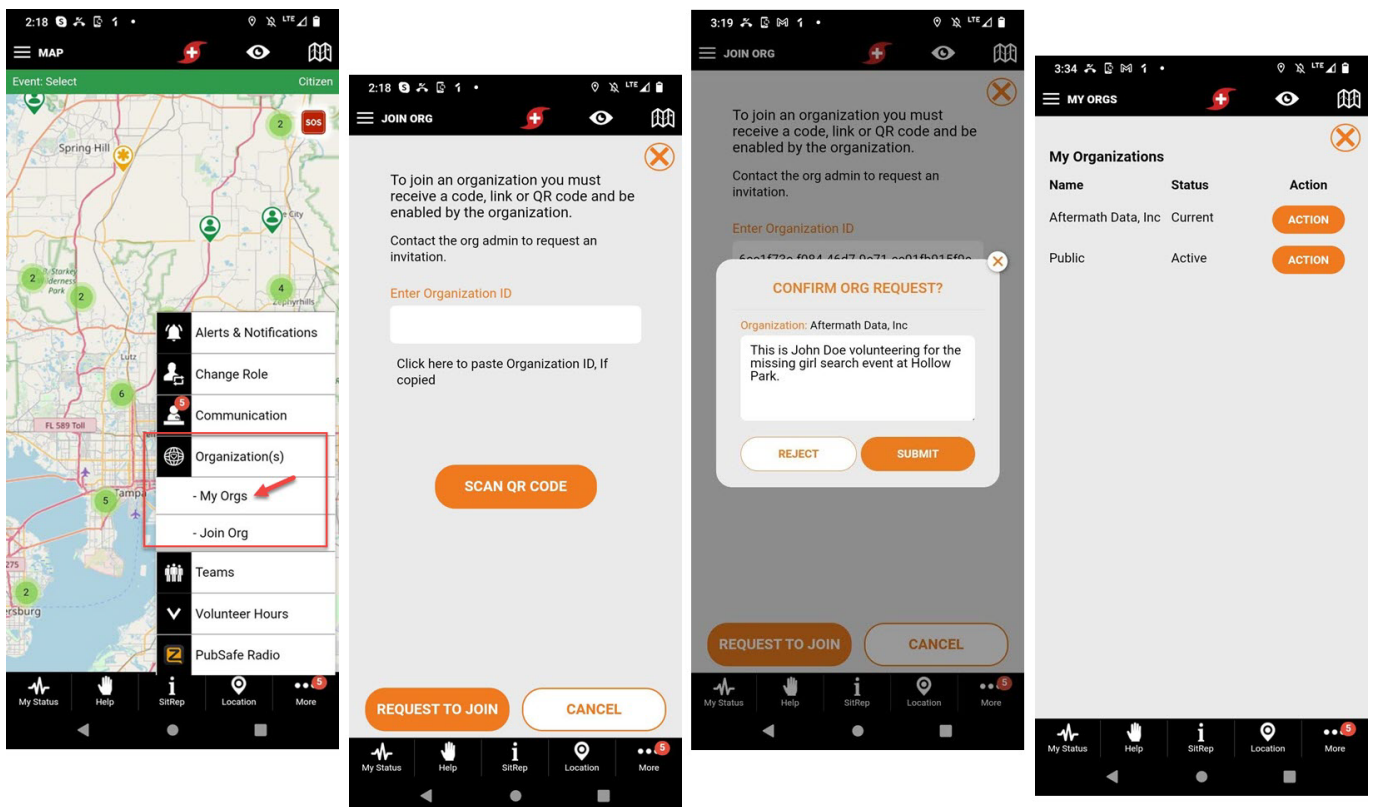

Since links can be freely shared with anyone after being sent, people must request to join an organization, and an organization administrator must give final approval. Members can be approved or rejected at any time. Follow the numbered steps below to approve a user. If in doubt, leave the option set to the default.

User Acceptance

Users must link the organization invite to their PubSafe mobile app profile by entering the Join ID into the mobile app. A user can join multiple organizations. Select the desired organization from those listed under My Organizations.
