## What do the different icons mean?

There are two primary user icons for Citizen Role and Responder Role. A citizen role is a silhouette and a responder role is a 6 pointed asterisk. A citizen is green unless they request help (orange) or post an emergency (red). Help requests are always orange and emergencies are always red.

A responder's icon color will change based on their selected status. There are a variety of responder status colors.

There are a variety of icons for various iPAWs and alerts. Click the icon to read the associated information.
