

# Map

## What do the different icons and menus provide?

### Base Map

1. My Status - Share your last know location and plans for family, responders, and others to monitor if you lose communication.
2. Help (routine) - Request help for routine and non-priority situations.
3. SitRep - Share information about what is going on in your area.
4. Location - Share information on a retail store, restaurant, shelter, aid station, hardware store inventory, etc.
5. More - Access additional functionality.
6. Map - Clear map filters and return to default.
7. Quick Post - Shortcut to post on popular topics.
8. Notifications - Show or hide notifications on top of the map.
9. Labels - Show or hide member labels on the map.
10. Team Filter - Show or hide (filter) team members on the map.
11. My Location - Show my location or hide my icon to access information on a layer below my icon.
12. Share PubSafe - Share the app with others.
13. Search and Filter - Search map data. Zoom to various areas to change the search data set.
14. Help - Priority - Priority help request. Potential loss of life or significant property damage. Call government emergency services first.
15. Work Order Availability - If in Responder status, you are available to accept, or not accept, additional work orders. Color-coded.
16. User Status - Citizen or Responder (Only Plus and higher app users can be a Responder)
17. Map Home - Return to the map from any screen.
18. Visibility Selector - Choose your visibility level.
19. PubSafe Share - Share the install link for the PubSafe mobile app by link.
20. Event Selected - The event you are responding to or sharing information about.
21. Admin menu (3 bars) - Access additional settings.
22. Citizen Icon - User in citizen status.
23. Responder Icon - User in Responder status.
24. Data Cluster - Multiple data points grouped together. Click to expand.
25. Your Icon - Your icon is always black and is the only black icon. It can be as a Responder or Citizen.
