Administration, Portal

How is the PubSafe portal free?

As a public benefit corporation, we are not driven by making money for shareholders. This enables us to focus on features and functionality for the sake of citizens globally.

The portal is currently funded by user subscriptions to upgraded services. This enables organizations and government agencies to spread the cost among the members. In most cases, this avoids fundraising for non-profits or annual budgeting issues for government agencies.

We hope to keep this model in place or only charge for some of the most advanced and costly features based on an organizations membership.
